

# Update for existing practices in BT Select

As at 1 November 2018, **BT Select** is rebranding to **BT Open Principals' Community**. This change supports the alignment of our branding to further complement the strength of our community.

In addition, BT has launched BT Open Services, an online services hub developed for advisers and practices which provides a simple and intuitive user experience. In time, BT Open Services will replace BT Adviser Services (BTAS) and we encourage you to check out the new hub via [btopen.com.au](http://btopen.com.au).

It is important to note that whilst we are transitioning you will continue to have access to all of the information you need through your Account Director and via BTAS.

To ensure a smooth transition to the new hub, we will require for **you and all of your team** to individually register online.

The next steps to gain access to the hub:

- If you are an existing Panorama user: [click here](#)
- For first time registrants: [click here](#)

We encourage you and your team to complete this registration by no later than 30th November 2018.

Thank you again for your continued support.

## For more information

Please contact your BT Select Account Director.
